CAREGIVERS

You can assist a child in your community!

Within Central Alberta, there are children who need a secure safe home and caring individuals to support and nurture them as they grow.

There are many options available to individuals who choose to assist children to reach their full potential. To assist a child you can:

Become a foster parent - Foster parents open their homes to children in need, and support them to return to their family home when possible. Some foster parents may choose to adopt the children they provide care to if the children are eligible.

Become a kinship caregiver - Individuals who have a significant relationship with a child in care can provide that child with a home. Grandparents, relatives, coaches, teachers, or neighbours, may have a role to play in helping a child stay connected to their culture and their community.

Provide a permanent home to a child or a sibling group - A permanent, loving home is what our children need to grow strong.

Help spread the word - That foster parents, kinship caregivers and adoptive parents are needed. Word of mouth is the best way to let others know that there are children in our community in need.

If you are interested in assisting or if you need more information, please call (403) 755-6104. For toll-free service first dial 310-0000.
